

# STOP TRAINING. START COOKING.

You shouldn't have to take a class to learn how to use your combi. Dial in temperature and time like a convection oven, and let the preprogrammed humidity do the rest. Add in the included probe and multispeed fan, and the Vulcan ABC7-P is the only restaurant combi oven anyone can just walk up to and start using. No training required.

DONE TO PERFECTION.  
vulcanequipment.com

With no training or programming required, the ABC7-P is the combi designed for restaurants to use as a combi oven. Not just as a steamer. Not just as a convection oven.

	ADVANTAGE	BENEFIT
<b>Dial in temperature and time like a convection oven</b>	Ensures anyone with the skill level to operate a convection oven already has the skills needed to use this combi.	Simply walk up and start cooking. Turnover is not an issue. Language barriers are broken. No additional training required.
<b>ABC Algorithm</b>	Auto-sets optimal humidity based on temp, making it easy to always use as a combi oven. Not just a steamer or a convection oven.	Maximize investment, decrease ticket-to-table times, minimize product waste, and increase menu quality. It's the combi oven you'll actually want to use as a combi oven.
<b>Preprogrammed humidity settings</b>	Provide all the benefits of combi cooking without the burden of programming every item and recipe on the menu.	Start using your new combi oven right out of the box. Focus on creating your menu—not on programming it.
<b>Integrated cooking probe</b>	Permits cooking to an exact internal temperature, or checking for doneness at a specified time.	Cook beef, chicken, pork, fish and more to your precise specifications. Stay in control, and serve up perfection.
<b>Multispeed fan</b>	Offers 3 speeds of heat circulation: full power for standard menu fare, and 2 slower speeds ideal for delicate items.	Achieve perfectly even results using the fan speed that best meets your needs. No hot spots. No rotations. No worries.

Experience more versatility in your kitchen. Whether cooking beef wellington or baked potatoes, the Vulcan combi gives you all the functionality you need to get the results you want—all in an oven that anyone can just walk up to and start using. It's combi cooking without the learning curve.
